## ABOUT EARTH'S OWN

Earth's Own started in Burnaby B.C. more than 20 years ago. They were making plant-based milk before the hashtag was trending. For the team at Earth's Own living a plant-based life isn't a fad, or a substitute, it's a legit choice. Earth's Own believes in the power of plants to change the world. They want to take a stand,

not when others moo, and encourage Canadians to choose plant-based to protect our earth. They have a bold new way of thinking about how the world eats. They are on a relentless pursuit to change the world through a plant-based movement.
